

## FAQs

### DocuCopy® RC 30 Recycled Tabs

**Q. What paper is used as the base stock for RC 30 Tabs?**

A. There are 3 stock choices: Premium65# Cover, 90# Index and 105# Index. All contain 30% post-consumer recycled fiber stock and are FSC Certified.

**Q. Is RC 30 SFI certified?**

A. SFI Certified product is available as a special order product.

**Q: Will RC 30 Tabs work as well as regular DocuCopy® Tabs, what's the difference?**

A: There is only one difference – the papers are manufactured from 30% recycled paper. All the quality features that are incorporated into regular DocuCopy® tabs are in RC 30 Tabs.

**Q: What items are available in the RC 30 version?**

A: The most popular fifth-cut items are available- reverse and straight collated.

**Q: Will they run on the same equipment as regular tabs?**

A: Yes, they will run on any equipment that is *tab capable*. See the complete Tab Capable Equipment List at [www.docucopyproducts.com](http://www.docucopyproducts.com)

**Q: Are custom orders available using the RC 30 stock?**

A: Yes-ask about the format your customer is interested in.

**Q: Why don't RC 30 Tabs have Trilar® tabs?**

A: RC 30 Tabs are manufactured without any polyester film lamination so they are completely and easily recycled.

**Q: How are the RC 30 Tabs packaged?**

A: RC 30 tabs are packed in the same quantities as regular DocuCopy® Tabs. Five inner sealed boxes (250 sheets each) in a shipping (1250 sheets per case).
